

# 1470nm / 15 W Diode Laser with LVR and SUI Probe For Cosmetic Gynecology

Vaginal Rejuvenation Probe

SUI ( Stress Urinary Incontinence ) Handpiece

## THE BENEFITS OF LASER TREATMENT

### A Simple Non Surgical Process that result in

- Increased Collagen
- Improved Muscle Tone
- Improved Sensation
- Reduced Vaginal Dryness
- Enhanced Orgasms
- OPD process without anesthesia
- No side effects
- Effective and painless

## APPLICATIONS

- Vaginal rejuvenation
- GSM-Genitourinary syndrome of menopause
- Vaginal atrophy
- Vaginal laxity
- Diseases associated to postpartum alteration
- HPV
- Dryness
- Itching
- Vaginismus

## SPECIFICATION:

● Laser type	: Diode, Semiconductor	● Power Supply of the Laser	: DC 24V/8.33A from the Separate AC
● Wavelength	: 1470nm	● Power Supply of AC Adapter	: Single phase 100-240 VAC: 50-60 Hz;
● MAX Power	: 15 Watts	● AC Adapter	: DC 24v/8,33A Medical device class
● Aiming Beam	: 635nm/Pulse, Single, Group		: EN60601-1 Class I
● Operating Mode	: Continuous Pulse, Single, Group	● Laser Dimensions	: 27cm* 11cm*19 cm length*width*height
● Pulse Time	: 0.05ms-1000ms	● Laser weight	: 2.75kg
● Beam delivery	: Fiber Optic with SMA 905 Connector	● Laser Case Dimensions	: 56cm × 35cm × 23cm
● Optical Fiber Connector	: SMA 905, accepts optical fibers having a core diameter from 200µm up to 600µm,	● Weight of Laser with Cases	: 09 kg
● Emmission Initiation.	: Footswitch	● Class of Medical Device	: IIB
● Controller	: Microprocessor	● Laser Safety Class	: 4
● Display	: 10.1" IPS with touch panel	● Electric Safety Class	: I type B
● Cooling System	: Internal, air and thermoelectric cooling	● Environmental Conditions During Work	: From +10 to 240C degree, relative humidity from 30% up to 60%
